

Hope starts with Judy.

My name is Judy and I'm a breast cancer survivor. Even after watching my mom battle breast cancer 23 years ago, nothing could prepare me to hear the words "You have breast cancer" in April 2006.

I immediately contacted the American Cancer Society for information and support. Just knowing they were there gave me so much hope. Today, I am grateful to be alive.

My friends, family, and the American Cancer Society helped me get through my battle with breast cancer. Making Strides is my way of giving back.

Last year, I rallied a team of 30 people to walk in Making Strides. When we got to the event, there were tents, music, and thousands of people. It was amazing. I was so proud to be a survivor.

My team, Judy Gloden's Angels, raised nearly \$4,000 to help the American Cancer Society fight breast cancer. We plan to raise even more this year!

To learn more about Judy and others, visit www.cancer.org/stridesonline.

Hope starts in our community.

Your support helps us fund over \$1.4 million in breast cancer research in Utah. Because of your efforts we are able to help breast cancer patients through our Look Good..Feel Better program and our Reach to Recovery Program. Your voices were also heard during the 2007 Utah Legislative session as we advocated for more funding for women without health insurance to receive mammograms and other life-saving cancer screenings.

Hope Starts with Early Detection.

The best defense against breast cancer is finding it early, when it's most treatable. All women 40 and older should get a mammogram every year. For more information about the American Cancer Society's recommended breast cancer screening guidelines, visit www.cancer.org/stridesonline.

In 2006, Stacy raised more than \$100,000 for Making Strides to honor her friend, a breast cancer survivor.

How does the money I raise fight breast cancer?

The donations you raise help the American Cancer Society fight breast cancer by ...

- Funding cutting-edge research leading to the discovery of lifesaving treatments like tamoxifen and Herceptin. The Society has invested more in breast cancer research grants over time than any other voluntary public health organization.
- Offering the nation's only 24-hour cancer hotline (1-800-ACS-2345), where people fighting cancer can turn anytime, day or night.
- Providing free programs and services that improve the quality of life for cancer patients and their families in more than 3,400 communities across the country.
- Advocating for public policies that provide all women access to mammograms and breast cancer treatment, regardless of income.

Since 1993, 3.5 million walkers across the country have raised more than \$230 million through Making Strides events. Thanks to people like you, the American Cancer Society provides help and hope to thousands of breast cancer patients like Judy.

Please walk with us.

Hope starts with you.

Thanks to our Sponsors!

Making Strides Against Breast Cancer is your opportunity to honor breast cancer survivors, educate women about prevention and early detection, and raise funds and awareness to help us achieve a day without breast cancer.

Sign up to walk in Making Strides. Registering online is easy at www.cancer.org/stridesonline.

Invite others to walk with you. Contact us for a team leader kit.

Raise donations from family, friends, and coworkers. Start by making your own contribution.

Double your fundraising dollars through a matching gifts program at work. Ask your human resources department for details.

Walk in Making Strides and be inspired by powerful stories, survivorship, and the knowledge that you're truly making a difference.

Volunteer at the event.

Protect yourself by learning about early detection guidelines at www.cancer.org/stridesonline and sign up for a free email mammogram reminder.

Walk on Saturday, October 13 or to participate without walking, mail your contribution to:
